Re: GRAMA Request, Kennecott Copper Corporation, Bingham Creek Channel, M/035/002, Salt Lake County, Utah

Dear Ms. Godsey:

The Division is in receipt of two requests from you (received July 22 and July 23rd respectively) regarding Kennecott Copper Corporation's Bingham Creek Channel. I have been informed that you and a member of our mineral's staff had a telephone conversation on July 26, 1996, wherein you were informed that the Division would have very little information regarding the Bingham Creek Channel itself. It is our understanding that clean up actions associated with prelaw mining activities on Bingham Creek Channel have been coordinated under the regulatory authority of the Department of Environmental Quality ("DEQ") and the Environmental Protection Agency ("EPA"). I understand that you were going to contact DEQ directly, and that you would not require anything further from this Division at this time.

We will not address these two requests unless we hear from you further. Thank you.

Very truly yours,

James W. Carter
Director
